About This Game

This app contains content typically considered mature, such as frequent nudity, or sexual content.

The story of the game is the same as "Dangerous Relationship" for the smartphone version.

- What is "Dangerous Relationship"?

This is a game where you can enjoy the dangerous world of dating a celebrity. Get seduced while you're on the job and try to keep your relationship a secret!

- The Story

You finally land a job in show business, which you had only ever heard of from TV and magazines. In a single day, you end up meeting an idol, an actor, a model, a musician, and a comedian, and from that day on, you suddenly change from being an ordinary citizen to being a celebrity's girlfriend.

- The Guys

Ryouhei Shindo

An ultra-popular idol. He exudes a manly aura despite having a cute face, and that gap is what makes him so popular. Whenever he decides to do something, he single-mindedly devotes all his energy to that one thing.

Kei Toyonaga

An actor who's rising in popularity. He's popular for having a pretty face but a biting personality, but in private he's even worse

than he lets on. He approaches you like you're his prey.

Taiga Saeba

Originally a magazine model, Taiga's wild personality has made him a hit on variety shows. He acts personable on TV, but in private he's arrogant, has a short temper, and doesn't speak much.

Subaru Oshima

A famous singer. Although he mainly writes rock songs, the genuineness of his emotions conveyed through his lyrics has made him a hit with women. In person he's very thoughtful, but a little fed up with how raunchy the industry is.

Akira Senba

A comedian that everyone's talking about. He also does side work as a model and singer. He has a very energetic and straightforward personality, and is a gentleman when it comes to dealing with women.

- You should play this game if...
- ...you want to fall in love with a handsome guy.
- ...you like romance novels, manga, or TV shows.
- ...you like romance games.
- ...you like idols and celebrities.

Love this game!!! For ladies who like a more mature type of romance, this is a great choice. For ladies that aren't into the bastard boyfriend trope, one of the routes might not be their favorite but they will still enjoy the sweeter guys' routes. If you are looking for an otome that plays out like a sexy romance novel, you will have a lot of fun with this game!!!. regret buying this game even tho i bought it on sale
the girl has no pride whatsoever
they easily fall in love
simply boring as hell
the characters are unlikable. I love the twunk and how he exposes the idol industry

The Sapphire Dragon Production Team. **The Ghosts of Hackney Mills - A New Mystery Adventure Game:**

Hi Everyone!

As some of you may have noticed, we have had a "Coming Soon" page up for a game that looks a little like Silver Creek Falls.

So we'd like to announce that sometime in early to mid November (we're aiming for November 9th) we'll be launching a mystery adventure game in the style of Silver Creek Falls. Some of you may remember that earlier this year we had a failed Kickstarter for "The Walsingham Files", a spinoff of Silver Creek Falls. At the time we wanted to finish that game but have instead opted to have a new title that is a lot less related to Silver Creek Falls and introduces a new location and new characters.

The game is a stand-alone game and currently there are no plans for it to be a series though if it does prove to be quite popular then we can definitely consider making sequels for it. It's a little bit more "experimental" than our previous mystery adventure games and has taken some inspiration from atmospheric games like "Everybody's Gone to the Rapture" and "Firewatch".

So we're still tidying it up and running some tests but we're very confident it should be out soon and we really hope you get a chance to pick it up and give it a play through!

Here is a link in case you haven't seen it yet:

. Early Release and Deluxe Edition:

Hey everyone!

ICYMI "Silver Creek Falls: Chapter 2" is now live and available for purchase early.

We did it! We got the game out on time! Actually we had it pretty complete a couple days ago but really wanted to hold back on publishing to make sure the game was as bug free as we possibly could. Thank you so much for your patience and support, we really hope you enjoy the game!

We also have a deluxe edition which has the game + OST for chapter 1 + OST for chapter 2 for \$US 6.99.

We'd like to again thank those of you who wrote positive reviews and/or comments on our steam page and YouTube teaser page for helping the word spread. Every good review and comment helps towards getting more and more people to know about our game and in turn helps us get more feedback and support to be able to keep making these games.

Also, a big shout out to Let's Players, you're all doing an awesome job with the game and we invite you to continue your adventures with the new chapter. An important note for Let's Players, there is a group exclusive just for you! It basically includes some tips on screen recording software that does and doesn't work well with the game and other general things to make your lives easier! Just add the developer CarloAntonio.

OK, now go download the game and enjoy!

Keep being awesome!

Hey Awesome People!

Coming Soon!

<http://store.steampowered.com/app/441060>

Only a few more days to go so keep on being awesome!

The Sapphire Dragon Productions Team. **"The Ghosts of Hackney Mills" Now Available:**

Hi Everyone!

It's done! "The Ghosts of Hackney Mills" is now out on Steam! We know it's been a while since we released a mystery-adventure game but we've done it. Just in time for Thanksgiving too!

Now this title is a bit more experimental and bold than the "Silver Creek Falls" series and takes a few risks in how did things and how we set up the puzzles. It's a trickier game than "Silver Creek Falls" but we know you will work it out!

So please pick up a copy for you to enjoy in the upcoming holidays and keep being awesome!

. **The Cat aka "El Gato Blanco":**

This cat is fast! You may have met him in "The Beaumont Philadelphia". Why does he keeps blocking your way. Why must he keep toying with me! He only wants to play. Luckily this shrewd cat is scared of the health inspectors and was no where to be found when they come visit.

However he is fond of greeting guests when they come down from their rooms.

You can beat this feline at his own game.

Often refereed to as a 'bug' or a flaw in the Silver Creek matrix. We have made a small tweak to how this public enemy operates.

Keep being as awesome.

. Silver Creek Falls: Chapter 2 **"The Walsingham Files: Chapter One"** is out and it's Free to Play!:

NEW MYSTERY

Hey everyone!

We're proud to announce that "The Walsingham Files: Chapter One" is now available for free on steam! We did it in the end!

I know we said before, during the announcement of "The Ghosts of Hackney Mills" that we were choosing not to move forward with "The Walsingham Files" project anymore, but thanks to a boom in the consulting wing of our business we were able to obtain the resources for us to be able to work on this project!

Check it out in the link below:

https://store.steampowered.com/app/1045850/The_Walsingham_Files_Chapter_1/

This probably comes as a little surprise for you all as we haven't really done much marketing or PR for this project and haven't released any games in a year. We've really been very busy and essentially working on this in our free time between other projects we're consulting for. Still, we were really excited about this project and kept working at it to be able to get it out for you all to enjoy!

"The Walsingham Files" will be an episodic mystery-adventure trilogy, much like Silver Creek Falls, and is actually a direct sequel to the Silver Creek Falls series. We implemented a lot of the new puzzle mechanics that we were discussing in the forums for "Ghosts of Hackney Mills" and we really feel that this is our most polished game to date. So please check it out and have a play and leave a review for us so we know how we did!

Keep being awesome!

. Trading Cards + Bug fixes:

We've recently released some bug fixes involving spelling mistakes and incorrect instructions. There were also some interesting situations which made people climb walls which have been addressed. (Credit ZA MAWNEE)

We've also added trading cards with the game which we wanted to have released closer to 30th of September but we had issues with our art and content within the the trading card system.

Most of you will also notice 2 extra achievements. One is closely related with the trading cards and the other was one we were not sure should be repeated.

Hope you all have enjoyed and keep enjoying the story. Also keep being awesome.
